KALPAS INNOVATIONS PVT. LTD
Hyperscaling Growth

Founded in 2020, Kalpas is a firm providing Enterprise-Class SaaS Development and Maintenance solutions primarily to small and mid-sized companies. We are Web and Native App Development Experts.

Our comprehensive services and Development portfolio includes:

· Strategic Problem / Gap analysis and Solutions planning
· SaaS Ideation, Design and Development
· Mobility and hosted Cloud services
· Software Project and Consulting Services

We minimize technology complexity by providing Software solutions that improve your agility, scalability and profitability allowing your organization to focus on core business objectives.

Kalpas has built a reputation of understanding client's operating environments, tailoring solutions, and consistently exceeding delivery expectations. As an experienced Technology partner, we have implemented solutions, trained client employees, and provide ongoing support to clients domestically and internationally.

Our team can assist with developing a technology roadmap that supports and enhances your business plan. Using that roadmap, we identify the right technologies and resources to deliver a seamless, integrated, holistic technology solution.

We would be happy to connect with you!

CTO WING

⚒ 5+ Company Collaborations

🕐 12+ Months of Contract

- This offering is for Non-tech / Tech based companies that need a team to be setup and managed in an independent manner.

- The teams will be responsible for the End-to-End delivery of the solution and subsequent management, service and scaling.

Who Is This Suitable For?

- This is specifically catered to companies who require a dedicated tech team but want none of the Hassles that come with Technology Team Management. We got you covered!

- We Build your team, manage it and also help build your software according to the requirements and Business Model.

End-To-End Tech Team Management

- By using this model, a company working with us is completely left to focus on the other verticals of the business and drive growth.

Budget
- Custom Quotes On A Case To Case Basis
- Revenue Sharing Model
- Flat Cost Model

SAAS

✖ 30+ Projects

🕐 3 - 5 Months Avg.

- Software as a service (or SaaS) is a way of delivering applications over the Internet—as a service.

- Instead of installing and maintaining software, you simply access it via the Internet, freeing yourself from complex software and hardware management.

- Ex: Stripe, Google Drive, Slack, Discord, WeTransfer, Zoho

What Have We Built So Far?

- Chat
- Document Management
- Video Call service
- School ERP
- Invoice Management
- Ticket Management App
- Video Streaming Platform
- ETL tool
- Social Media App
- Task Management
- Jobs Portal

+ more

10+ Projects

4 - 12 Months Approx.

- App-Dev specifically speaks about an Installable application that is delivered for Android, iOS, Windows, Linux or any other OS. These are Different from PWAs as these require a hardware level installation and PWAs operate with a browser interface.

- Ex: Uber, SnapChat, Instagram, LinkedIn, Venmo

Who Is This Suitable For?

- For Companies targeting a user base on the SmartPhone, or people who desire a Windows Installable file.

- Android AppStore, MicroSoft Store, Apple AppStore Compatible apps.

What Do We Offer?

- App Wireframe, UI/UX Research and Design, Testing Pipeline, Scalable DB Architecture, App Testing and Debug setups, respective distribution Pipelines, Backwards Device Compatibility and much more.

Ball-Park Budget:

- $6,500 per month and Upwards

WEB-DEV

✏️ 25+ Projects

🕐 4 - 8 Months Approx.

- Building websites and applications for the internet using the technologies like HTML, CSS and JS.
- Ex: Google Search, Amazon.com, Facebook.com

What Can We Achieve?

- Any tool with a specific use case can be built using the listed technologies.
- The Requirement can be from a simple Chat app to a Full Blown Custom ERP scaling across multiple verticals of an Industry.

What Do We Offer?

- Complete SDLC. From Design to Delivery, we will take you through every step of the way. A dedicted team can be setup that can handle the full scope of the project.
- Mobile-First approach, Responsive UI Implementation
- All you need is an Idea! We will build it for you.

Ball-Park Budget:

- $5,500 per month and Upwards
